

Lee Elliott started Carpentry By Elliott back in 1973. He earned his Journeyman Certificate with the local Carpenters Union in Detroit. Hundreds of successful residential projects were completed while in the greater Detroit area.

Being an outdoor lover, the Pacific Northwest called and Lee relocated Carpentry by Elliott to the greater Seattle area in 1986. We expanded our focus into tenant improvement projects for new and established businesses looking to update their images and workplaces. Over the past 23 years, a host of both residential and business remodel projects have been completed in the Seattle area.

Carpentry by Elliott takes every job seriously, whether it's a simple as a front door replacement or as complex as a 3-story addition. We sell 36 years of experience, and the understanding that the need to make the right decisions at every step of any remodeling project.

CARPENTRY BY ELLIOTT

REMODELING & HANDYMAN SERVICES

Involved in remodel construction are many different trades. The most critical skill, however, in implementing any construction/remodel project is carpentry.

Lee Elliott is first of all in all his projects the hands-on rough and finish carpenter. Only functioning in this capacity assures presence on site, correct steps in the beginning, and the best possible outcome.

Because Carpentry by Elliott is a small firm committed to the remodeling area of construction, we prefer hands-on involvement with clients. We are well-qualified and experienced in both the design and permitting processes and actively collaborate with owners in design and execution of their remodeling project.

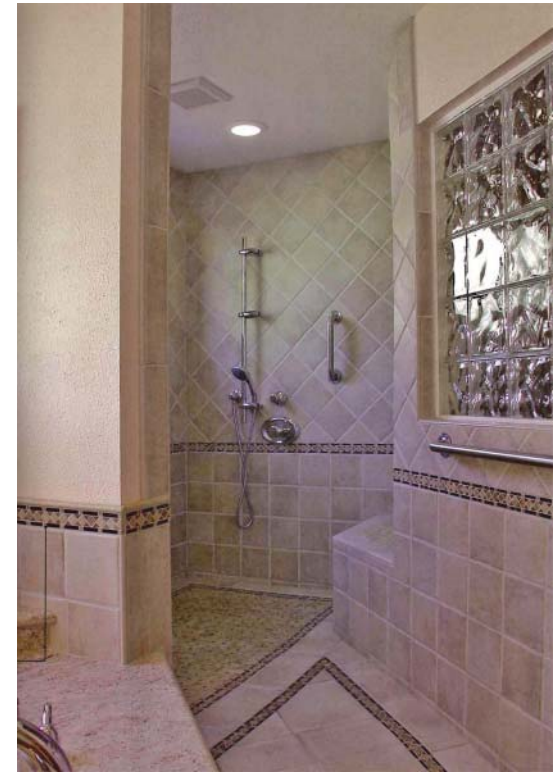

Preferring to work closely with owners throughout the course of a project.

- **Design/Build Services**
- **Kitchen Remodeling**
- **House Additions**
- **Bathroom Remodeling**
- **Handyman Services**
- **Aging in Place**

What sets us apart?

A willingness to work closely with clients through the design, site preparation, rough and finish aspects of any project. In addition, we are able to design your project around a target budget and see it through to completion. We are committed to keeping you informed at all times.

What is Aging in Place?

Aging in place means remaining in one's home safely, independently and comfortably, regardless of age, income or ability level. It means the pleasure of living in a familiar environment throughout one's maturing years and the ability to enjoy the familiar daily rituals and the special events that enrich all our lives. It means the reassurance of being able to call a house a "home" for a lifetime.
